

100% Wool, Hypoallergenic, All Natural, Dryer Sheet Alternative

NEW

SKU: SHEEP6

Sheep6

Smart Sheep® Dryer Balls

Your customers can feel good about using biodegradable wool instead of traditional dryer sheets. Sheep6 Dryer Balls are great for sensitive skin and for fluffing laundry without landfill impact.

Help dry faster without harsh chemicals.

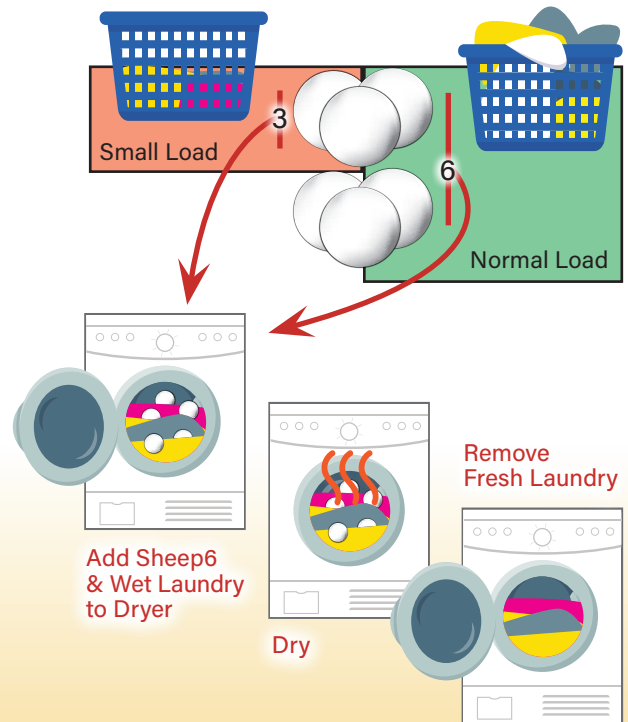

Fluffy Fresh Fabrics

Using Smart Sheep® brand wool dryer balls, your customers now have a better way to soften clothes, eliminate static, and help make clothes wrinkle free and fluffy. Instead of going through a mountain of landfill-unfriendly dryer sheets—with their harsh chemicals—clothes get done faster with Sheep6 which can reduce energy usage and utility bills.

Wool dryer balls bounce and separate wet layers of clothing that would otherwise stick together. This allows warm air to circulate freely between the fabrics to dry items faster. They're an economical dryer sheet alternative that are super for sensitive skin, kind to clothes, and they can be re-used for up to 1,000 loads.

Every customer needs to have 6 Smart Sheep dryer balls ready for each load, using three for small loads and six for normal loads.

- **Terrific Feel-Good Ad-On**
- Eliminates Dryer Sheet Residue Buildup in Ducts
- Healthier, Chemical Free Alternative to Dryer Sheets

Skip the Sticky Sheets

As well as creating dryer-lint-attracting residue in your customers' ducts, dryer sheets use harmful, irritating chemicals like benzyl acetate and chloroform.

Sheep6 is a nice *all-natural*, hypoallergenic alternative.
